DIRECTORS' REVIEW

The Directors of Worldcall Telecom Limited ("WTL" or the "Company") are pleased to present the brief overview of the financial information for the nine months period ended 30 September 2012.

Financial Overview

Revenues for the period under review have shown a growth of 8% as compared to corresponding period last year. However this increase has been diluted by eroded margins and high fixed cost. The Company has been struggling against different odds in recent past. On macro-economic front price hikes, power outages and delayed market reforms deteriorated the situation. Internally, the delay in network/business expansion has been creating pressure. Consequently the Company has incurred gross loss of Rs 83 million. Operating costs are in line with the level of activities and as percentage terms of net sales there is a slight improvement from 21% to 19%. Finance cost witnessed savings of 7% as against comparative period last year. The period was closed with net loss of Rs 1,155 million as compared to loss of Rs 92 million in the corresponding period last year.

Future Outlook

Subsequent to period end, the International Clearing House (ICH) arrangement has commenced working. This has brought a much awaited relief for the whole industry. The arrangement has also received some criticism, but keeping in view the market situation and the problems being faced by operators, it seems the best solution to cure the ailments of this industry. It is expected that successful running of this arrangement will generate healthy returns for all including Government of Pakistan.

The Company is currently focused towards data market. Various capital layout plans are being considered for increasing the customer base. Besides this, the Company is also aiming to invest significantly in the service delivery areas to increase the satisfaction level of customers. In broader terms, the Company is looking forward to take steps so that customer's confidence in its products and services are enhanced and to ensure provision of quality services at competitive pricing

Company's staff and customers

We whole heartedly put in record here our appreciation and gratitude to our all staff members for their efforts and hard work especially in recent times of stress and pressure. We further express our sincere gratitude for our customers for their continued trust on our services.

For and on behalf of the Board of Directors

6.1 During the last year the Company acquired an indefeasible right of use in respect of capacity procured from Multinet Pakistan (Private) Limited for the period of 15 years.

6.2 Goodwill represents the difference between the cost of the acquisition (fair value of consideration paid) and the fair value of the net identifiable assets acquired at the time of merger of Worldcall Telecom Limited with Worldcall Communications Limited, Worldcall Multimedia Limited and Worldcall Broadband Limited.

The Company assessed the recoverable amount of Goodwill at 30 September 2012 and determined that as of this date, there is no indication of impairment of Goodwill. The recoverable amount was calculated on the basis of five year financial business plan which assumes cash inflows of USD 70 million from investing and financing activities. As assumed in the five year financial plan, the Company during last year obtained a long term loan facility of USD 35 million. The management has considered the delays in the inflows of second tranche of USD 35 million due to delay in regulatory approval and is of the opinion that it will not have a significant impact on the recoverable amount of Goodwill.

The business plan also includes a comprehensive analysis of the existing operational deployments of the Company along with strategic direction of future investments and business growth. Discount rate of 16% was used for the calculation of net present value of future cash flows. The cash flows beyond the five years period have been extrapolated using a steady 5% growth rate which is consistent with the long-term average growth rate for the industry, whereas for impairment calculation no growth is considered in cash flows beyond five years as per International Accounting Standard 36 - Impairment of Assets.

7.1 During the last year the Company has acquired an indefeasible right of use in respect of capacity procured from Multinet Pakistan (Pvt) Limited for the period of 15 years.

7.2 Goodwill represents the difference between the cost of the acquisition (fair value of consideration paid) and the fair value of the net identifiable assets acquired at the time of merger of Worldcall Telecom Limited with Worldcall Communications Limited, Worldcall Multimedia Limited and Worldcall Broadband Limited.

The Company assessed the recoverable amount of Goodwill at 30 September 2012 and determined that as of this date, there is no indication of impairment of Goodwill. The recoverable amount was calculated on the basis of five year financial business plan which assumes cash inflows of USD 70 million from investing and financing activities. As assumed in the five year financial plan, the Company during last year obtained a long term loan facility of USD 35 million. The management has considered the delays in the inflows of second tranche of USD 35 million due to delay in regulatory approval and is of the opinion that it will not have a significant impact on the recoverable amount of Goodwill.

The business plan also includes a comprehensive analysis of the existing operational deployments of the Company along with strategic direction of future investments and business growth. Discount rate of 16% was used for the calculation of net present value of future cash flows. The cash flows beyond the five years period have been extrapolated using a steady 5% growth rate which is consistent with the long-term average growth rate for the industry, whereas for impairment calculation no growth is considered in cash flows beyond five years as per International Accounting Standard 36-Impairment of Assets.

8 Long term trade receivable

This represents receivable from the sale of Optical Fiber Cable stated at amortized cost by using the discount rate of 16%. This amount is receivable from Pakistan Mobile Communications (Private) Limited over a period of five years and from Getronics Pakistan (Private) Limited over a period of 20 years.
